

Shipment Road Story

Each shipment has its own story

The shipment road story provides you with an at-a-glance summary of the shipment’s route and conditions, and it can be easily shared with colleagues and customers alike. Shipment road stories are now available for all shipit.to accounts for both future and past shipments.

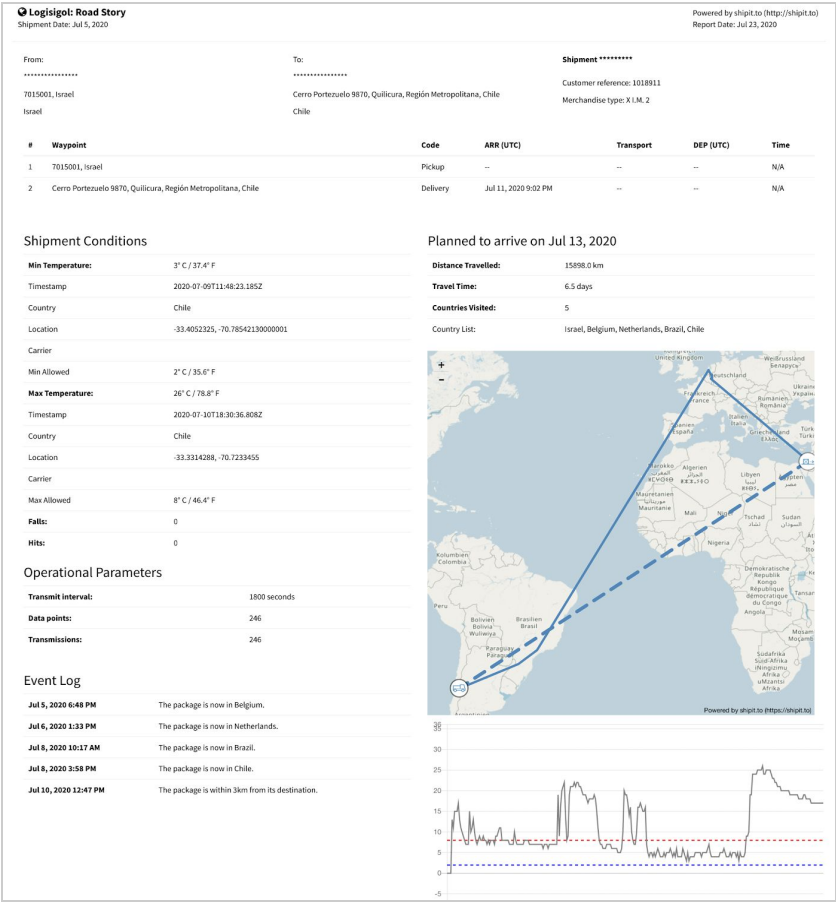

Discover the hidden data concerning your shipments

Accessible from both the shipment list and the shipment screen itself, the Road Story provides in-depth information at-a-glance, covering the shipment’s:

- ⑤ Route-map, temperature graph, and event log
- ⑤ Waypoint arrival & departure timestamps
- ⑤ Shipment condition and general information

With Road Stories you can collect valuable insights about specific routes from a variety of sources – all in one place.

Use them to investigate shipping errors, to improve overall performance, and to communicate shipment status to customers.

Example of a shipit.to ‘Road Story’ showing a complete shipment’s journey.
